

ADMINISTRATIVE NOTES

U.S. GOVERNMENT PRINTING OFFICE
SUPERINTENDENT OF DOCUMENTS
LIBRARY PROGRAMS SERVICE

VOL. 4 , NO. 19

DECEMBER 1983

SPECIAL CLASS NUMBER

The December 1983 Monthly Catalog will include a number of records whose classification numbers terminate with the suffix /x. This suffix will alert the user that these publications bear classes assigned by Colorado State University rather than the Library Programs Service. We have simply added the suffix /x to eliminate the possibility of conflicts with classification numbers assigned by LPS personnel. These publications were processed by CSU as a part of their project to catalog a number of publications not distributed to depository libraries or included in the Monthly Catalog. This project, which ended in 1982, was funded by a U.S. Department of Education Title II-C grant. These records are being included in the Monthly Catalog to improve bibliographic control for the entire documents community. The overall number of /x class documents is limited, and LPS anticipates their presence in the Monthly Catalog will terminate by the March 1984 issue.

CLASSIFICATION MANUAL UPDATE

In August 1983, GPO let a contract to Mrs. Mae Collins (now retired former Chief of the Library Division) to prepare a classification manual for use by both GPO staff and depository library personnel. GPO has now received the first draft of the manual, which is undergoing review by supervisors and technicians in the Library Division, with a view to ensuring that the manual contains both an historical perspective and an accurate statement of current policy. Completion of the editorial process is expected in the coming months, after which the manual will be printed and distributed to depository libraries. The Library Programs Service will keep the depository library community informed of the manual's progress through notices in AD NOTES.

CATALOGING GUIDELINES UPDATE

All depository libraries should have received Change 1 to the Government Printing Office Cataloging Guidelines by now. Change 1 includes new and revised pages for chapters 1, 2, and 4. Changes for chapter 3, regarding series, will be part of Change 2. Any comments or questions regarding the Guidelines should be directed to the Chief of the Classification and Cataloging Branch.

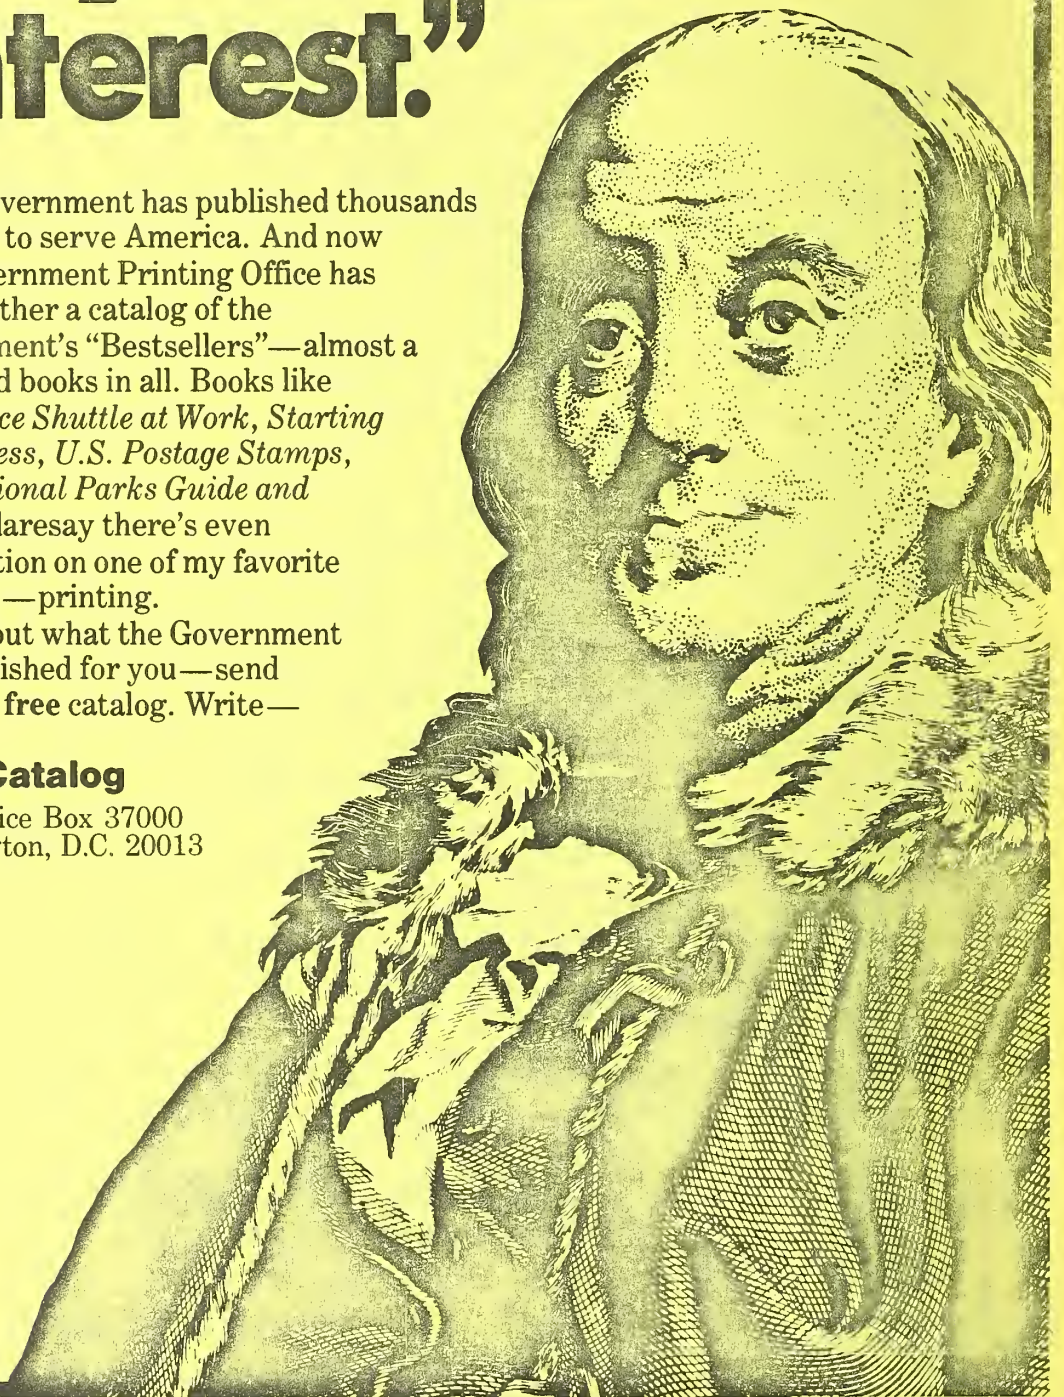

“An investment in knowledge pays the best interest.”

Your Government has published thousands of books to serve America. And now the Government Printing Office has put together a catalog of the Government's "Bestsellers"—almost a thousand books in all. Books like *The Space Shuttle at Work*, *Starting a Business*, *U.S. Postage Stamps*, and *National Parks Guide and Map*. I daresay there's even information on one of my favorite subjects—printing.
